Definitely nothing like any diary I've ever read or written. Anais Ning is really engaging. Each entry in the diary is so frank and shows its deeply introspective and artistic character. For the most part I would say nothing really wonderful happens in the diary; Yet Ning is one of those people who could turn a normal, everyday event into something magical and profound. This is a woman who really lived, who really survived a life that sought to fully understand the human relationship, both to edify. It's a shame. It's real. A real woman who leads a free life. Fashion hate her as lame as Wilco's knee-jerk love. It's like putting on a pair of Ugg boots in town. I have always believed in the choice of a writer to write about the mundane affairs of life, and thus, to turn it inside, so that the reader sees the world through the mirror. After all, the greatest instrument available to the biographer is the letters. moreI feel a little cheated. I'm fascinated by Ning's letters and ideas. I'm interested in her work. I can forgive the solipsism of the diary, as it is, after all, a diary. But I read this collection writing feeling like I only get half the story. More This was my introduction to the work of Anais Ning - the very first volume that fell into my teenage hands. Anais, with her home in the Paris suburbs, in which each room was painted in a different color, and she lived with her husband, and met a man named Henry Miller. In which she explored the possibility of being a female writer, writing things she knew as a woman, a voice she had not yet seen in print, utterly subjective, pisces, muted, veiled, inexhaustible diary. This is her diary. It's all about her. Let it go. Sep 01, 2007Kate rated it was okRecommends it: independently rich artistI had to stop reading this book, although I fully enjoyed Ning's long reflections on life and its general content. It didn't help me take the giant leap of faith needed to live my life as an artist. The woman never had a job, all she did was wander around, doing what she wanted to do all the time, and then writing beautiful philosophical comments. (Anais Ning) what an understanding! this woman was my hero until I read the passage: a man can never know the loneliness a woman knows. a man lies in the womb of a woman only to gain strength, he feeds on this fusion, and then he rises and goes into the world, in his work, in battle, in art, he's not alone. He's busy, the memory of swimming in the amniotic fluid gives him energy, completion, a woman may be busy too, but she feels empty, sensuality for her is not only a wave of pleasure in which she bathes. moreSep 03, 2007Emilia Gallagher appreciated it was amazing!t's best to read it, sitting in Les Deux Magots in Paris, sipping coffee, and watching as the world goes. In life, he's an incongruous figure. To judge a writer, you need to have an equal love for writing, as well as for a person. I am always between two worlds, always in conflict. I would like to sometimes rest, rest, choose a corner, make the final choice, but I can not. Some unnamed, indescribable fear and anxiety keeps me moving. She dazzles intellectuals, deals with poets and becomes the savior of the psychoanalytch. Nothing in her life was ordinary, because she was determined to live, to live, to live in a big way. And her diary is filled with so much truth. Portraits of people deprived of idealism. About myself, too. She describes life as if it were made of poetry beauty, even her problems. I drank every word in it because I was bound to her sin. moreNov 09, 2013Margaret appreciated it liked not because I did not like the style of Ning's writing or her point of view, but it seemed that there was just something a little off in editing that jumped from one thing to another too much, or would not fully explain what was going on. Anais Ning is still definitely on my read list, but it was a little hard as a beginner to see how things are going to come together. It was also part of a series of books on diaries, diaries and actual diaries that I read, and was the most of it. moreApr 11, 2012Krystal Michele appreciated it was amazingWhy you have a poetic or analytical heart, whether it's a writer or a wallflower, bisexual, straight, or a little bit of everything, there's something important to take from these magazines. Then you read a book ... or you take a trip ... and you will find that you do not live, that you are in hibernation. Symptoms of hibernation are easy to detect: first, anxiety. The second symptom (when hibernation becomes dangerous and can develop into death): lack of pleasure. That's it. Sounds like a harmless disease. Monotony, boredom, death.
